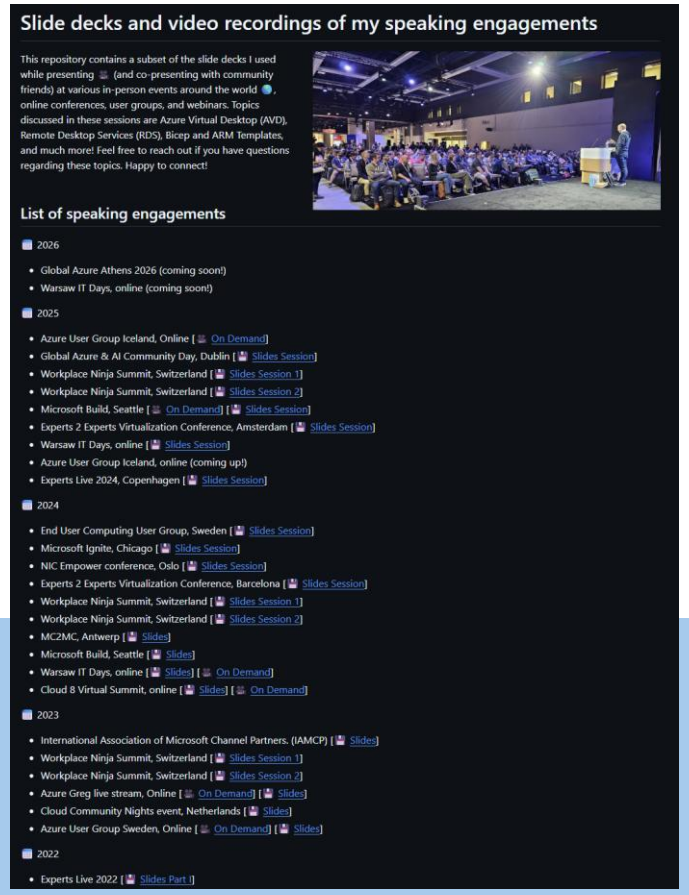
ALL my sessions and decks:
github.com/fberson/Slidedecks



Slide decks and video recordings of my speaking engagements

This repository contains a subset of the slide decks I used while presenting (and co-presenting with community friends) at various in-person events around the world, online conferences, user groups, and webinars. Topics discussed in these sessions are Azure Virtual Desktop (AVD), Remote Desktop Services (RDS), Bicep and ARM Templates, and much more! Feel free to reach out if you have questions regarding these topics. Happy to connect!

List of speaking engagements

2026
