MICROSOFT
MARKETPLACE

- PHASE 1:
Write code
- PHASE 2:
??? Marketplace
- PHASE 3:
Profit

Why Microsoft marketplace?

ISV:

Visibility & GTM
support

Partner:

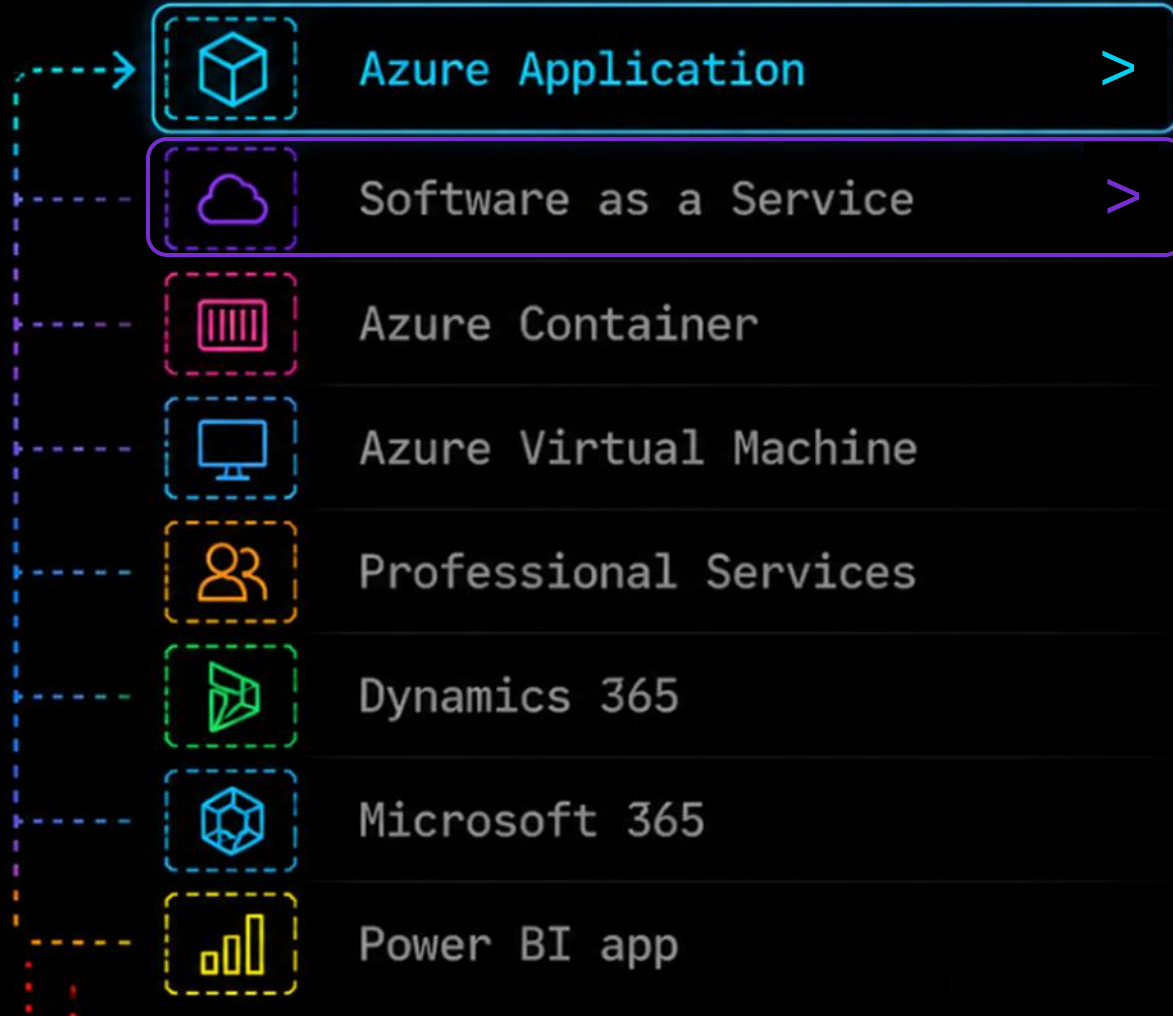

Private offers and
simplified sell

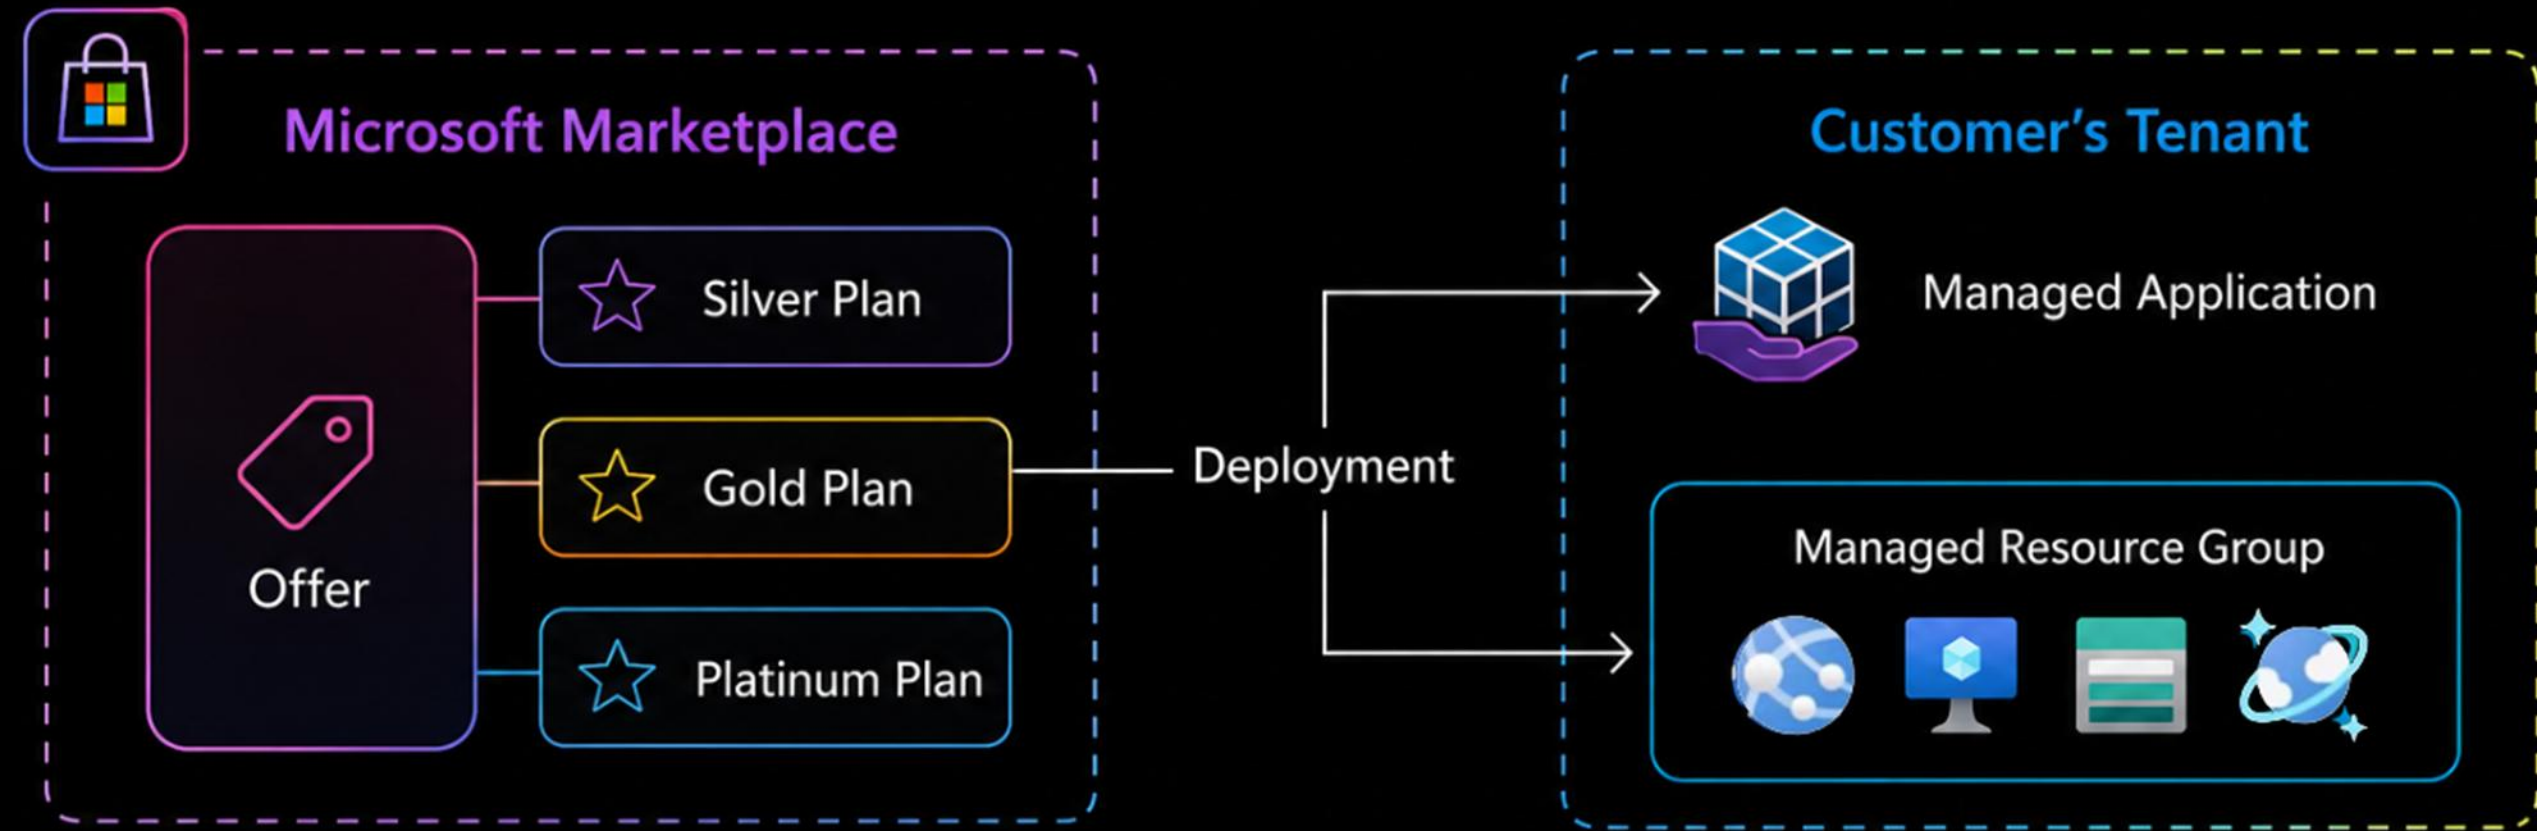

Customer:

MACC and easy
deployment

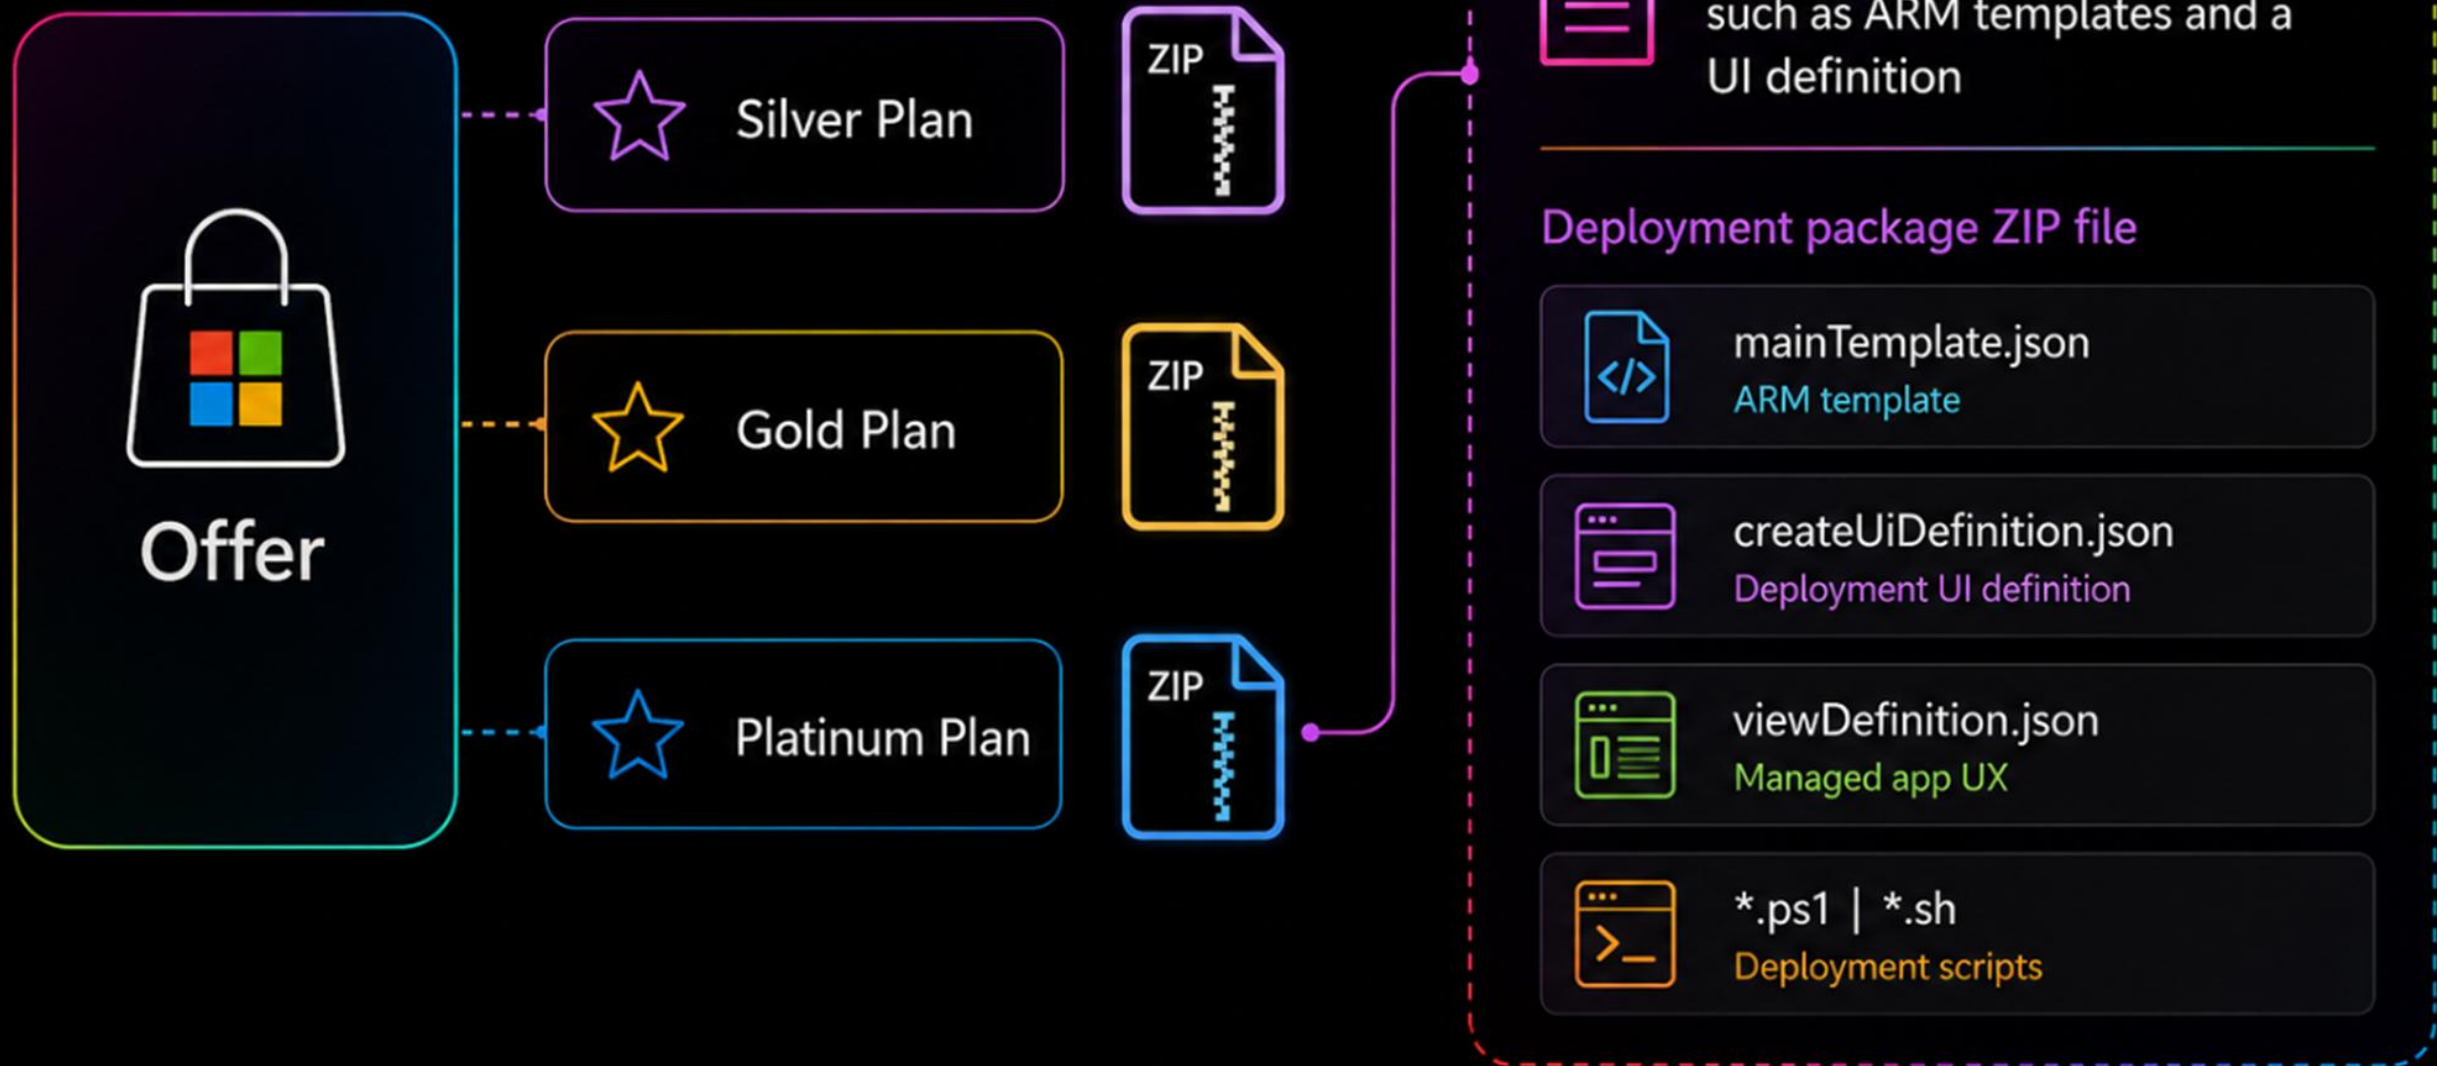

Marketplace Offer Types

Azure Application Offer

Offer contents

Demo - Azure Application Offer

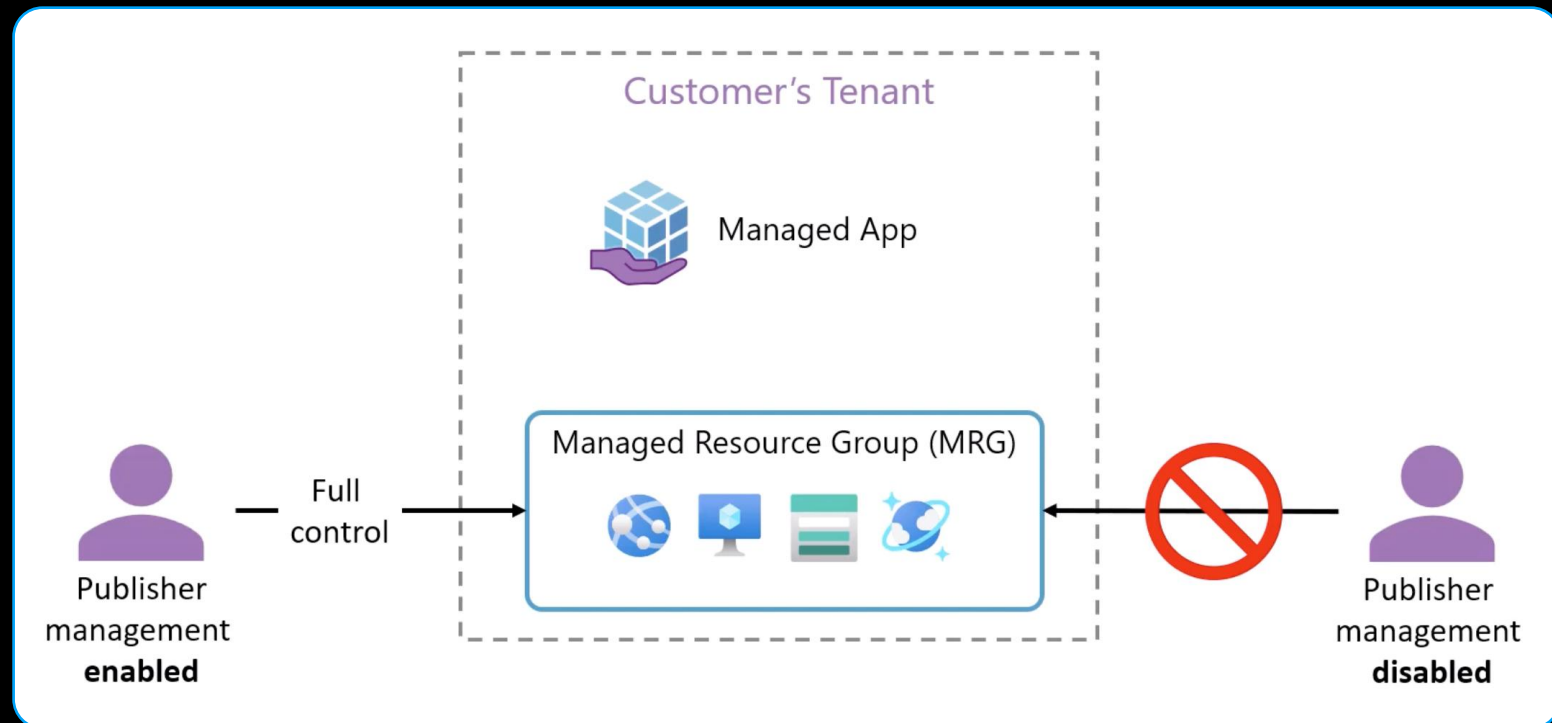

Publisher access modes

Enabled

- Publisher has full access to MRG
- Typical for publisher to perform solution administration

Disabled

- Publisher has no access to MRG
- No publisher solution maintenance

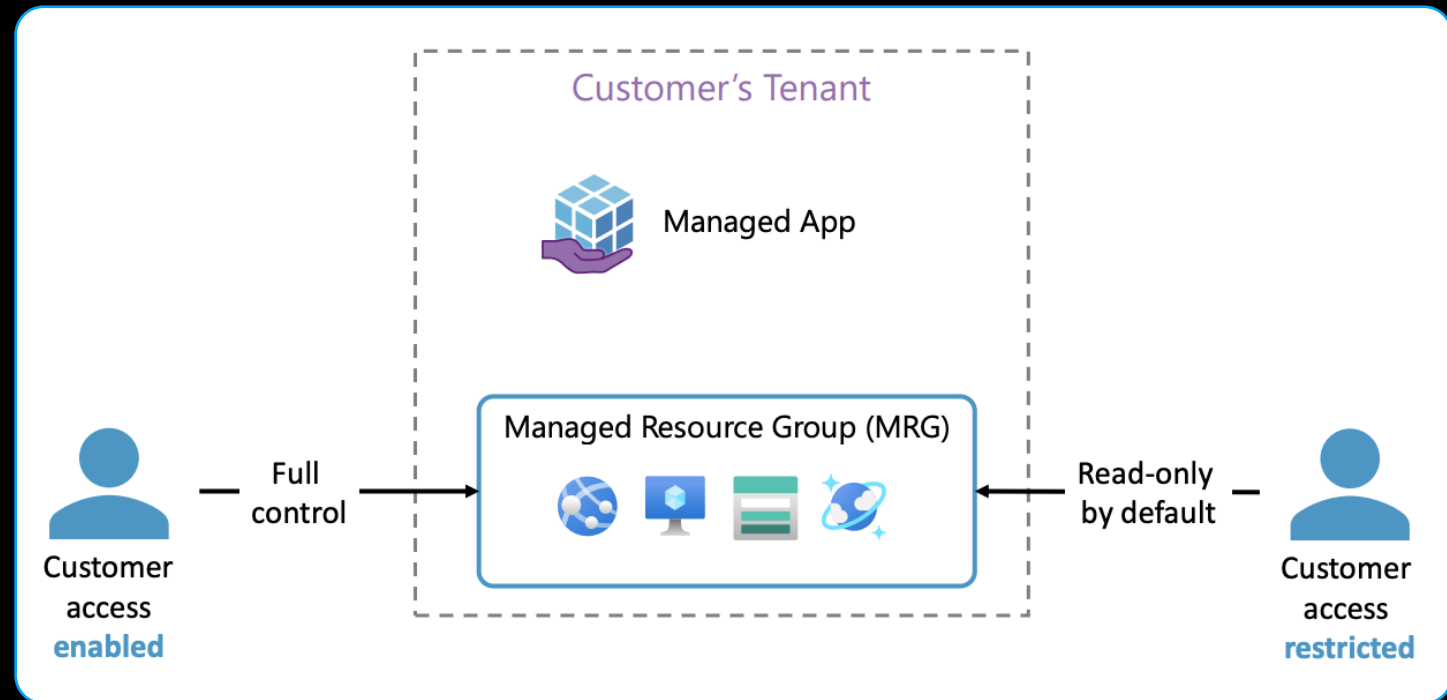

Customer access modes

Enabled

- Full access to MRG and resources deployed within it
- Customer can manage the resources deployed to the MRG

Restricted

- Read-only access to the MRG by default
- Publisher can specify access levels to specific services in MRG

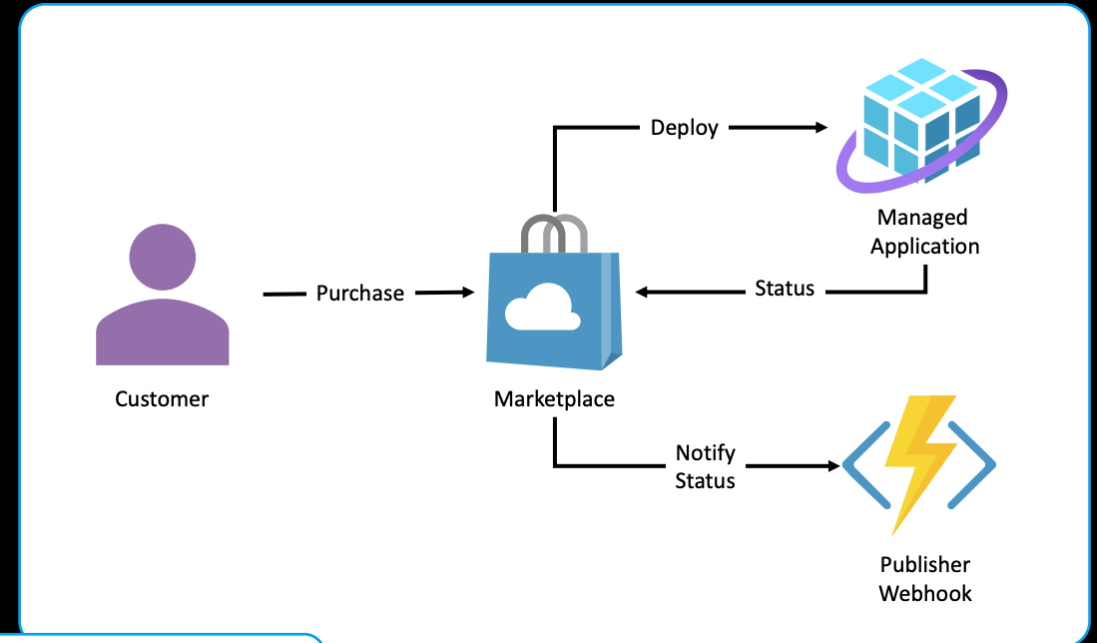

Combining modes

		 Publisher access to customer Azure tenant	
		Enabled	Disabled
 Customer Access to Resource Group	Enabled	New  Open App	New  Customer managed App
	Restricted	 Publisher managed App	New  Locked App

Managed application webhook (optional)

Provides a way to track the status on deployment in customer subscriptions

Accepted

- Deployment operation has begun
- Before resource deployment

Succeeded

- Deployment completed successfully

Deleting

- Starting to delete the Managed Application

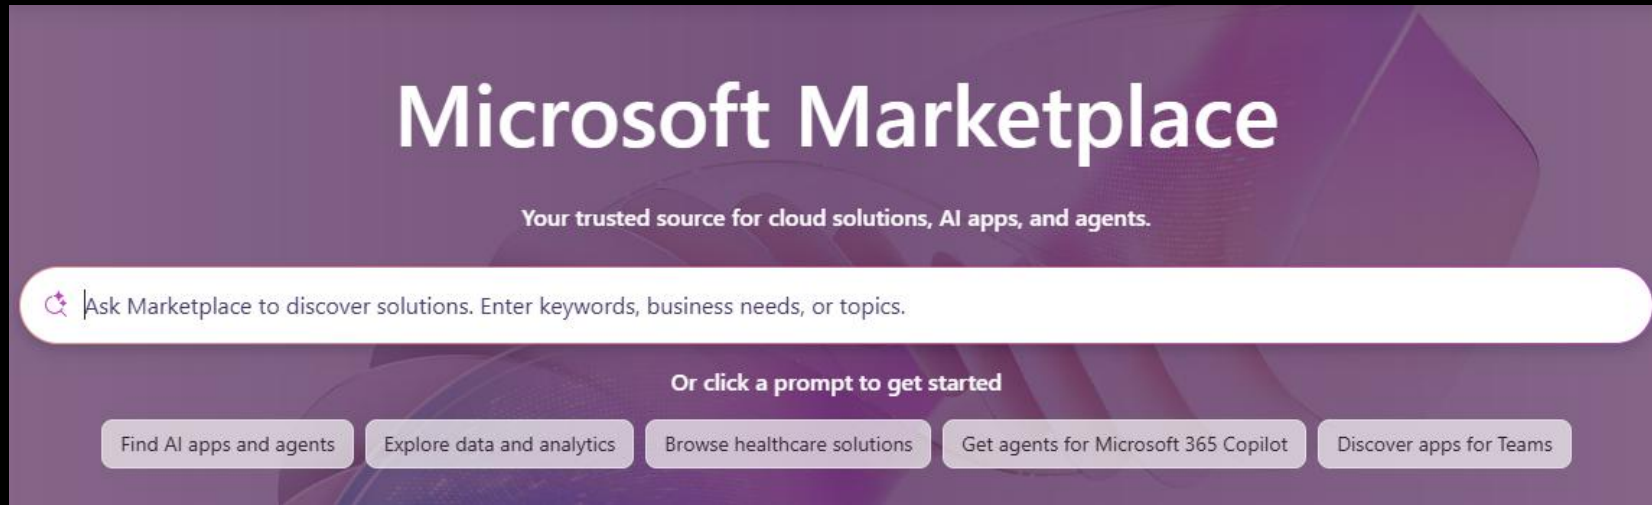

Deleted

- Managed Application and MRG are deleted

Failed

- Creation or deletion failure

Make your Azure Marketplace offer discoverable by intent

01

OUTCOMES

Lead with the problem solved and the measurable customer outcome.

02

SCENARIOS

Name concrete use cases, industries, roles, and deployment contexts.

03

FIT

State integrations, prerequisites, architecture, security, and governance.

04

PROOF

Make differentiators, evidence, support, and time-to-value easy to compare.

Can a buyer find and evaluate your offer without knowing its product name?

Test prompts

"Find a solution that ..."
"Compare options for ..."
"Will it integrate with ...?"

SaaS offers: what changes for you

You host it:

Your multi-tenant app runs in your own Azure subscription. Marketplace only handles identity, purchase and billing.

Two endpoints:

A landing page (Entra ID SSO + purchase token) and a webhook for suspend, reinstate and cancel.

Fulfillment API:

Resolve the token, then Activate the subscription. No activate call means no payout.

SaaS Accelerator: skip the plumbing

What it is:

Microsoft's open-source .NET reference app: landing page, webhook handler, admin portal and metered scheduler.

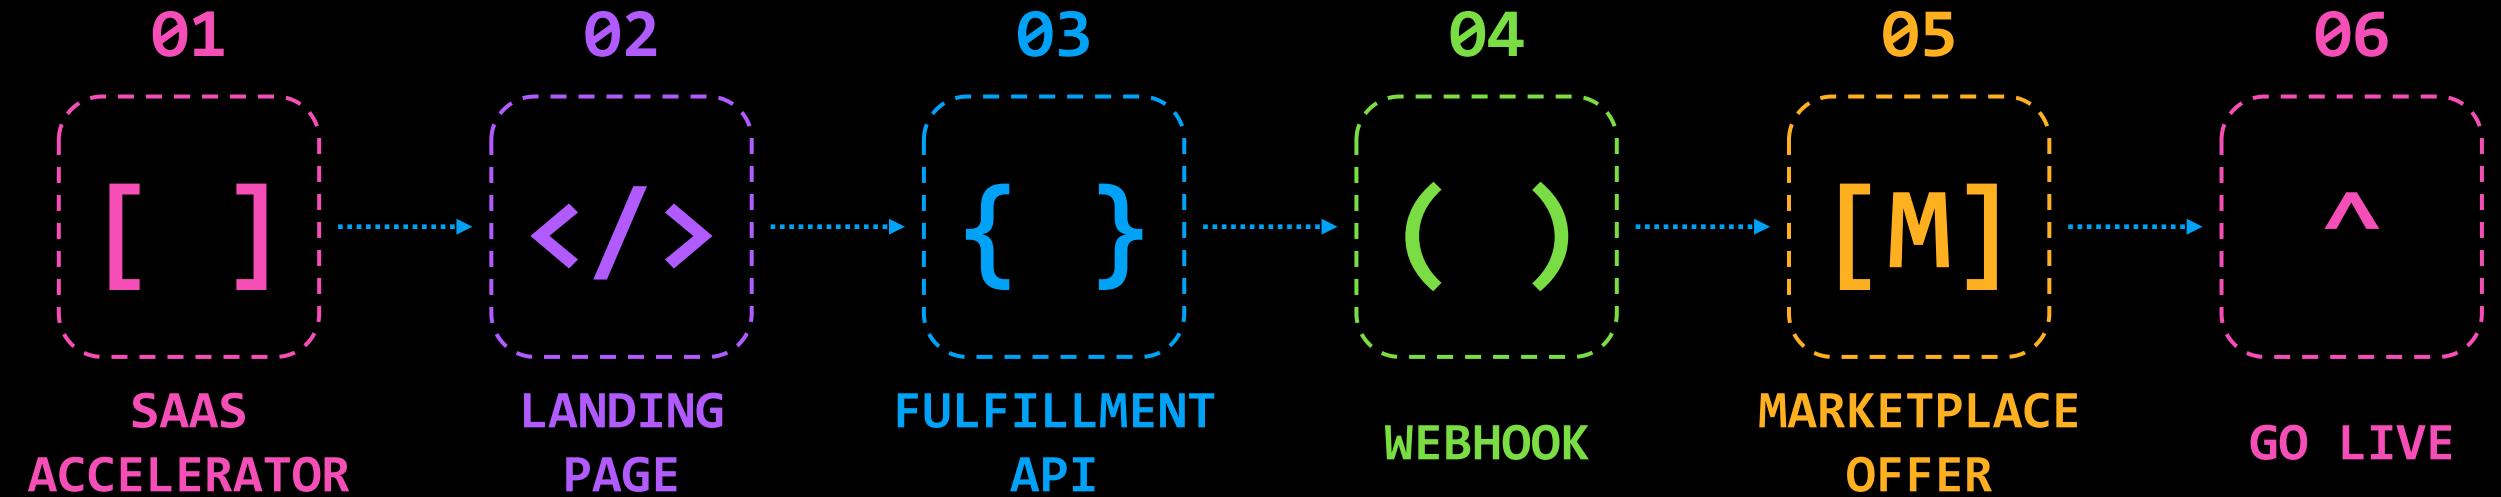

Deploy it:

One PowerShell script provisions App Service, SQL DB and the Entra app registrations.

Extend it:

Fork, don't clone. Swap the sample UI, keep the fulfillment logic, track upstream releases.

Demo – SaaS Offer

THANK YOU

Slide decks and video recordings of my speaking engagements

This repository contains a subset of the slide decks I used while presenting (and co-presenting with community friends) at various in-person events around the world, online conferences, user groups, and webinars. Topics discussed in these sessions are Azure Virtual Desktop (AVD), Remote Desktop Services (RDS), Bicep and ARM Templates, and much more! Feel free to reach out if you have questions regarding these topics. Happy to connect!

List of speaking engagements

- 2026
 - Global Azure Athens 2026 (coming soon)
 - Warsaw IT Days, online (coming soon)
- 2025
 - Azure User Group Iceland, Online [On Demand]
 - Global Azure & AI Community Day, Dublin [Slides Session]
 - Workplace Ninja Summit, Switzerland [Slides Session 1]
 - Workplace Ninja Summit, Switzerland [Slides Session 2]
 - Microsoft Build, Seattle [On Demand] [Slides Session]
 - Experts 2 Experts Virtualization Conference, Amsterdam [Slides Session]
 - Warsaw IT Days, online [Slides Session]
 - Azure User Group Iceland, online (coming up)
 - Experts Live 2024, Copenhagen [Slides Session]
- 2024
 - End User Computing User Group, Sweden [Slides Session]
 - Microsoft Ignite, Chicago [Slides Session]
 - NIC Empower conference, Oslo [Slides Session]
 - Experts 2 Experts Virtualization Conference, Barcelona [Slides Session]
 - Workplace Ninja Summit, Switzerland [Slides Session 1]
 - Workplace Ninja Summit, Switzerland [Slides Session 2]
 - MC2MC, Antwerp [Slides]
 - Microsoft Build, Seattle [Slides]
 - Warsaw IT Days, online [Slides] [On Demand]
 - Cloud 8 Virtual Summit, online [Slides] [On Demand]
- 2023
 - International Association of Microsoft Channel Partners. (IAMCP) [Slides]
 - Workplace Ninja Summit, Switzerland [Slides Session 1]
 - Workplace Ninja Summit, Switzerland [Slides Session 2]
 - Azure Greg live stream, Online [On Demand] [Slides]
 - Cloud Community Nights event, Netherlands [Slides]
 - Azure User Group Sweden, Online [On Demand] [Slides]
- 2022
 - Experts Live 2022 [Slides Part 1]
