Deploying Infrastructure and Turning on the Light: Bicep Beyond Azure

FREEK BERSON

Microsoft MVP (Azure & Azure Virtual Desktop)

**Bicep as a declarative
control plane for any
system with an API?**

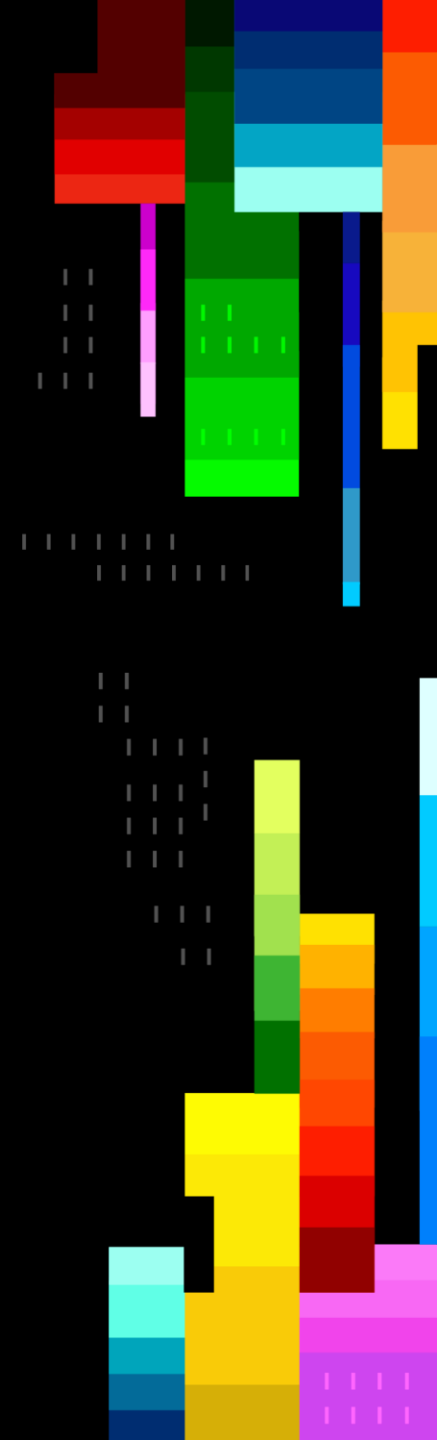

Deploying Infrastructure and Turning on the Light: Bicep Beyond Azure

FREEK BERSON

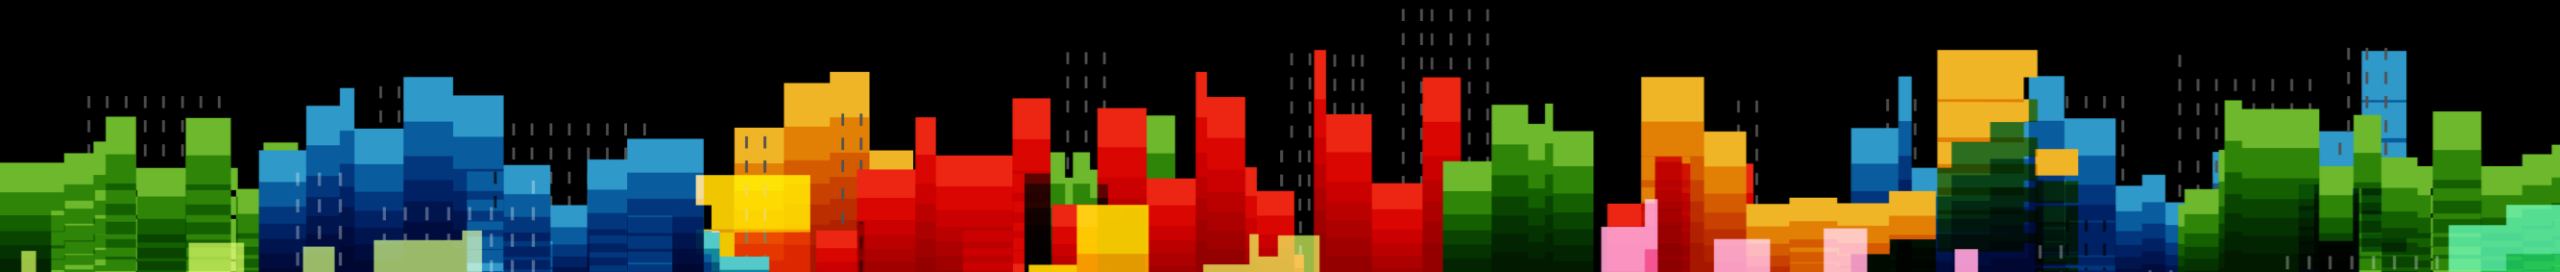

Microsoft MVP (Azure & Azure Virtual Desktop)

Why is this important?

- Reuse and apply Infrastructure as Code knowledge
- Benefit from declarative control, idempotency, & consistency
- 3rd party APIs, Edge environments, non-Azure environments

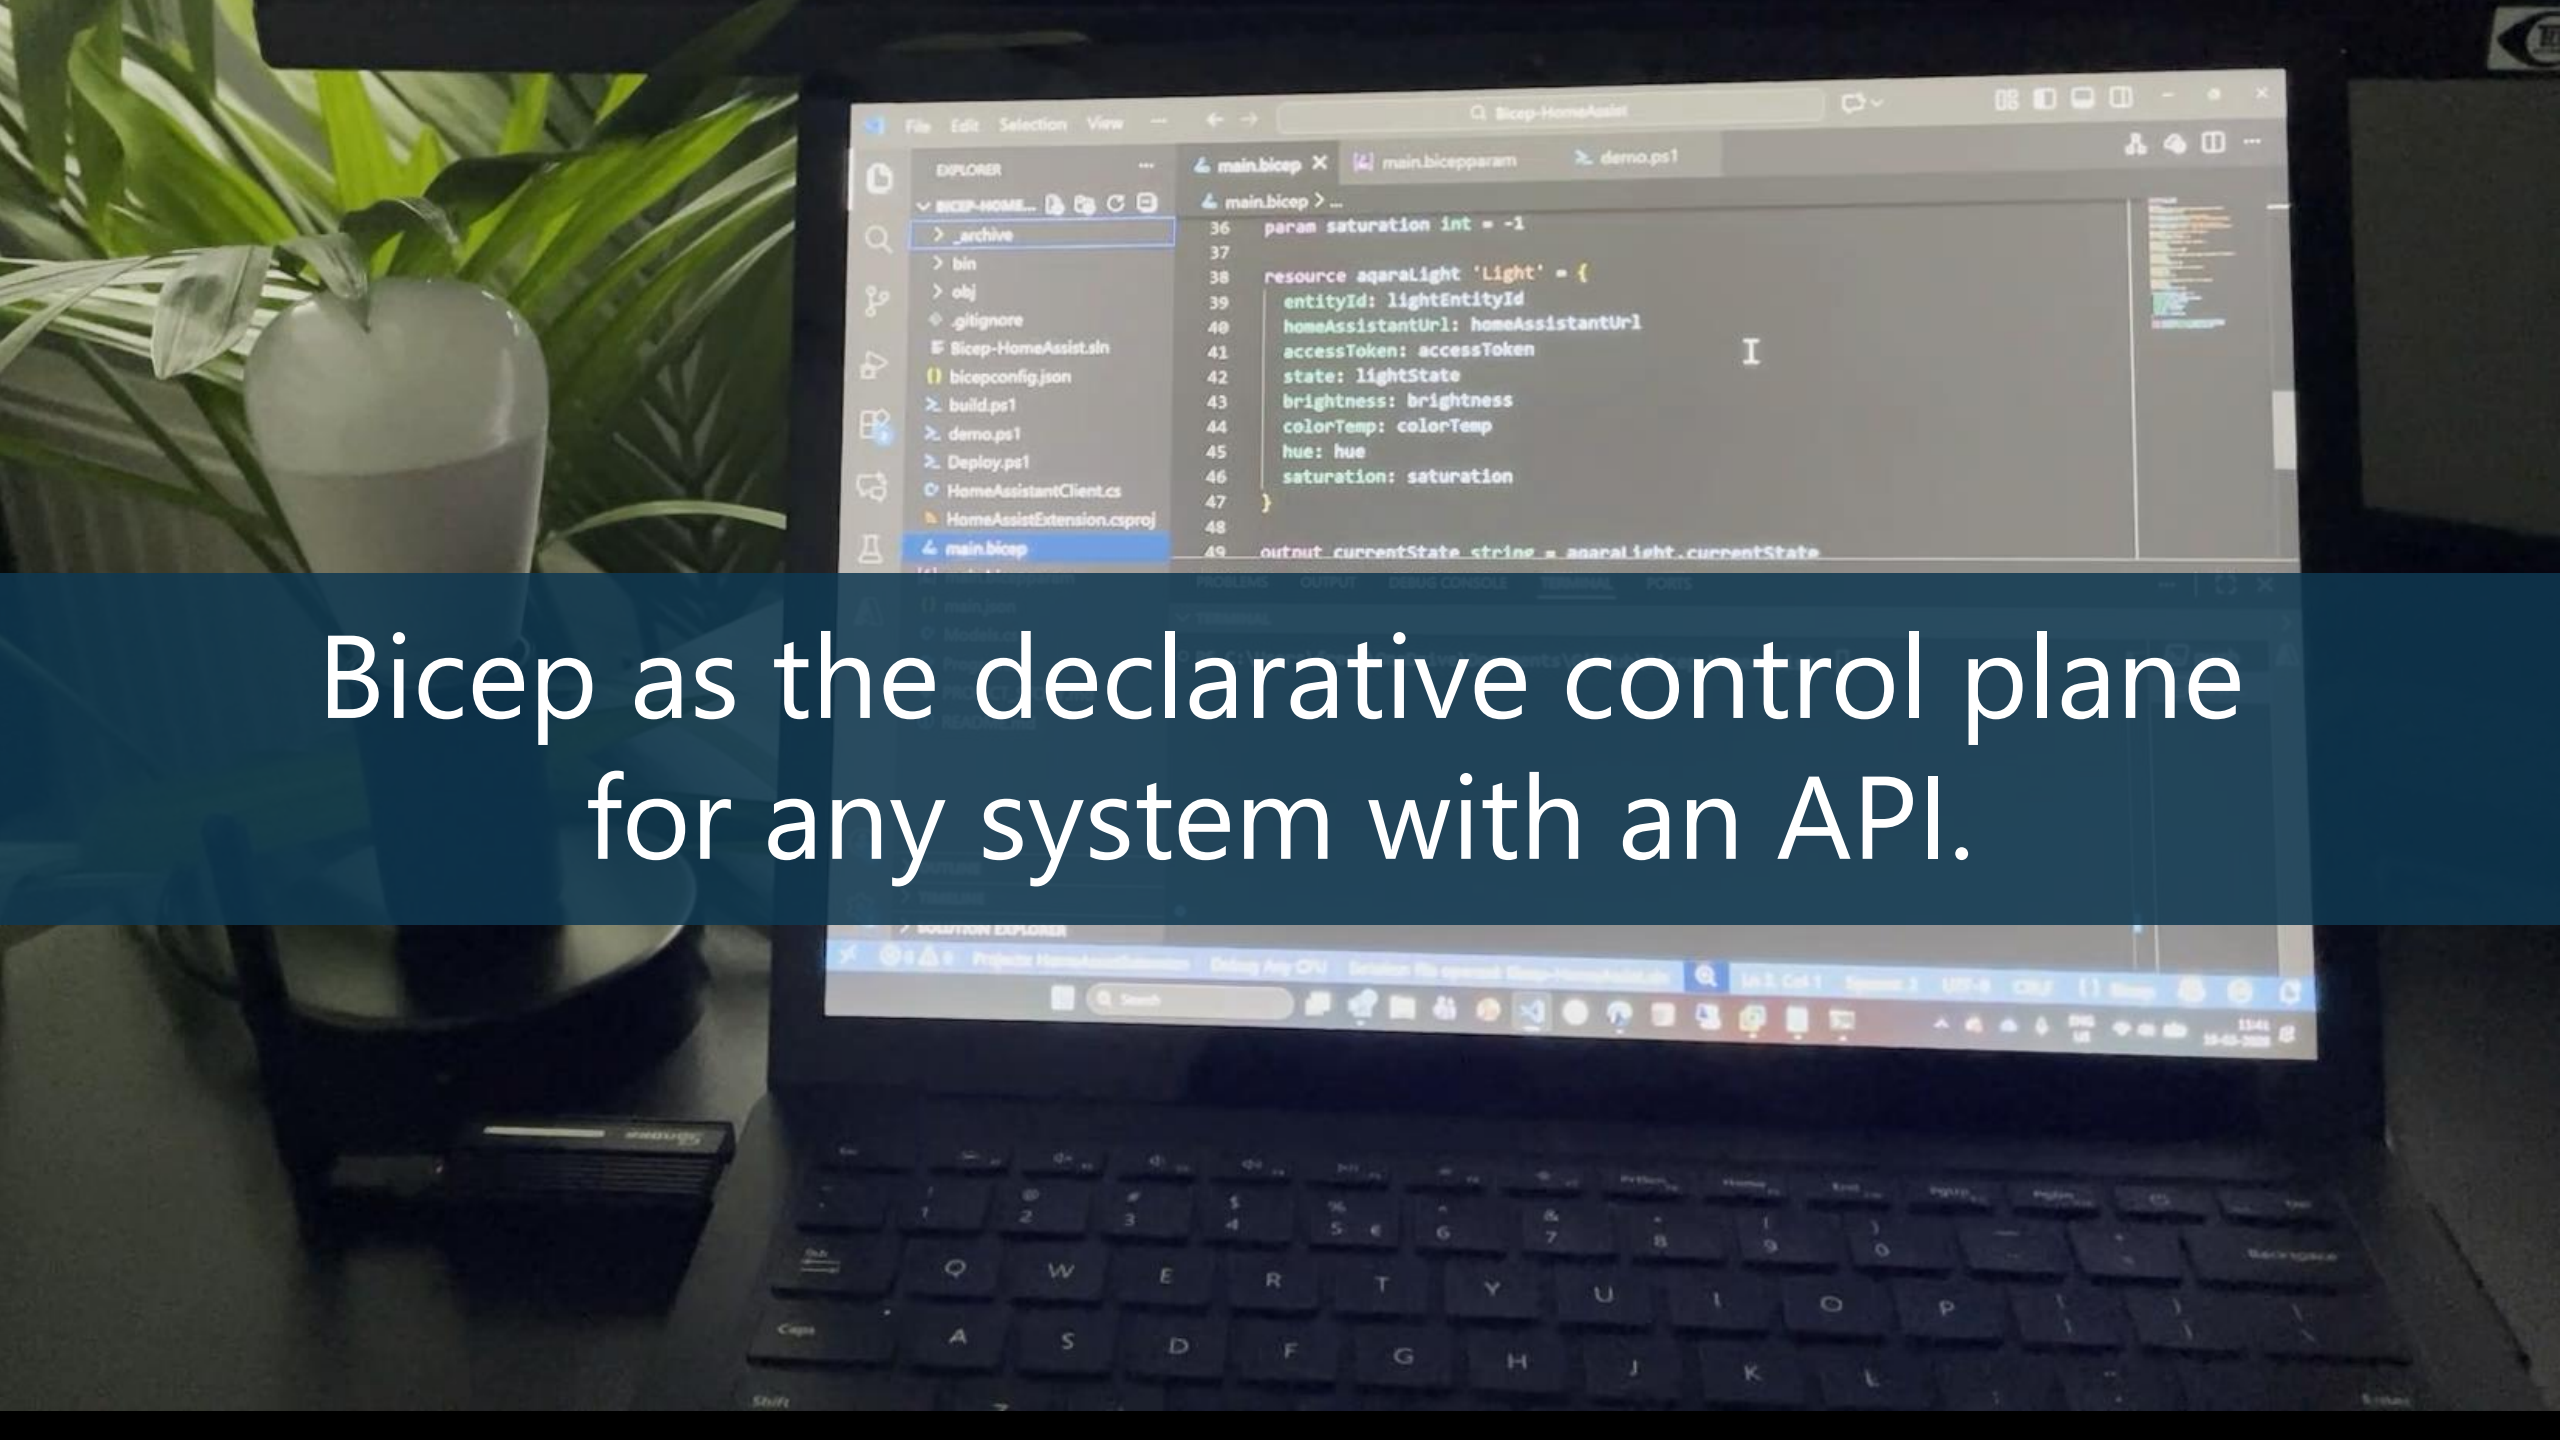

Bicep → Extension → API

Demo

Bicep Local Deploy in action

Bicep as the declarative control plane
for any system with an API.

CALL TO ACTION

- Get all the source code from GitHub: github.com/fberson
- Let's connect during Build:
 - Tomorrow, DEM363 01:30 PM in Theater 3
 - Tomorrow, 02:30 PM at the AI-Ready infrastructure booth
